

Serene Innovations **HI-DEFINITION AMPLIFIED TALKING CID TELEPHONE**

Models HD-65 with talking CID, talk-back keys & 600 times amplification

Features for HD-65

- Amplifies the incoming sound up to 600 times louder (55+dB), the most powerful in its class
- HDS (Hi-Definition Sound) technology makes every word clear and intelligible, it eliminates virtually all distortion, echo effects and unwanted static noise
- Digital Tone Settings allow you to selectively enhance the tone of difficult to hear words making them easy to understand again
- Large and easy to see display with menu in English, French or Spanish
- Talking Caller ID enunciates the caller's number in English, French or Spanish
- Easy to use phone book with incoming-call and dialed-call logs
- Back-lit talk-back keys confirm (in English, French or Spanish) if you've pressed the desired key correctly
- Voice-mail and Missed-call indicator for extra convenience
- Audio and visual "Off-hook" warning to alert you that you have not hang-up your phone properly
- Six (6) easy to program one-touch speed dial buttons
- Super louder ringer (95+dB) with adjustable ringing volume and tone
- Two bright visual ringer flashers so you will never miss another call again
- Battery back-up for full operation during power outage
- Output jack for tele-coil, neck-loop and other assistive accessories
- Hearing aid compatible handset
