

• In use *

*Smartphone and corded phone not included

DESCRIPTION

With this new device, your landline phone conversations can be converted from voice to text on your Smartphone or tablet after installing the Text Hear Personal App.

All you need to do is to connect the V2T10 device between the phone cord and its base, launch the application and the conversation will be written on your smartphone or tablet screen.

Voice to text conversion can be either conversation in only or conversation in and out through the device.
